Culture, Spirituality and Enjoyment

Martin Luther: No one before or after him left the marks on human history like the little man from Mansfeld. When he nailed his 95 Theses to the door of the Castle Church in Lutherstadt Wittenberg, changes erupted which have influenced people even until today.

Almost 500 years after this spectacular event, millions of people throughout the world are finding their way to the reformer and those who supported him. They are searching for the inner roots of their personhood, in addition to the „Genius Loci,“ the spirit of the place where everything began.

Saxony-Anhalt: You are in the right place. Here is the LutherCountry. On the Luther route, which is over 410 km long, you will find both the authenticity of historical places and impressive evidence that the ideas of the reformers are still alive.

Everyone is welcome!
